LETTER OF SUPPORT

The Northeast Regional Center of the National Institute for Space Research (CRN/INPE) is very pleased to express its support of your plans to bring the International Global Atmospheric Chemistry (IGAC) Conference and the International Commission on Atmospheric Chemistry and Global Pollution (iCACGP) Symposium to Brazil in 2014.

The IGAC conferences have, over the years, been an outstanding forum for science discussions and presentations of relevant results covering several areas of the atmospheric science community and other related fields. Our motivation to support the IGAC 2014 conference in Brazil, mirror the growing scientific collaboration within South America and other regions in the world.

We gladly support this initiative and look forward to a successful conference.

Manoel Jozeane Mafra de Carvalho
Chefe do Centro Regional do Nordeste
(CRN / INPE)
