Av. dos Astronautas, 1758
12.227-010 São José dos Campos, SP
Brazil

LETTER OF SUPPORT

The National Secretariat for R&D Policy and Programs (SEPED) of the Brazilian Ministry of Science and Technology (MCT) is very pleased to express its support to your plans to bring the International Global Atmospheric Chemistry (IGAC) Conference and the International Commission on Atmospheric Chemistry and Global Pollution (iCACGP) Symposium to Brazil in 2014.

The IGAC conferences have, over the years, been an outstanding forum for science discussions and presentations of relevant results covering several areas of atmospheric sciences and other related fields. Our motivation to support the IGAC 2014 conference in Brazil mirrors the growing scientific collaboration within South America and with other regions in the world on the important topics to be covered in the Conference.

We gladly support this initiative and look forward to a successful Conference.

Carlos Afonso Nobre
National Secretary for R&D Policy and Programs
Ministry of Science and Technology)
