

Notes from the 17th IGAC Southern Hemisphere Working Group meeting, 27th August 2020.

This meeting was focused entirely on the positioning paper.

Please see new link

<https://docs.google.com/document/d/17KRAgdB8DnTmXHACEBSRIXEKiCemhApcB7thIsMYCtg/edit?usp=sharing>

The sections and section leads are:

1. Introduction (Clare Murphy)
2. Atmospheric Chemistry in the Southern Ocean (Ruhi Humphries) – with contributions from Julia Schmale, Katye Altieri, Steve Wilson and Ian Galbally
3. Biogenics (Kathryn Emerson and Rebecca Garland) – this is basically completed
4. Air Quality (Egide Kalisa, Nicolas Huneus, Judith Hoelzemann, Clare Murphy – and maybe Gustavo Olivares?) – This will have sections on Africa, South America and Australasia.
5. Summary/Conclusions (Clare)

We agreed another month extension to get the sections drafted.

Then in October Clare Murphy will take the paper as is and make edits necessary to get full first draft with the aim of having this ready in November.
