

**Starting time**

	<b>Sal.</b>	<b>First name</b>	<b>Surname</b>	<b>Abstract Title</b>
10:00	Prof	Youba	Sokona	The Africa Integrated Assessment of Air Pollution, Climate Change and Sustainable Development
10:10	Prof	Veronique	Yoboue	Air pollution in West African cities and some strategies for particulate pollutant emissions reduction
10:20	Dr	Sekou	Keita	Urban emissions inventories development for air quality modelling in Abidjan and Korhogo cities
10:25	Mr.	Ezekiel	Nyaga	HDM-4 Model Calibration and Estimation of Vehicular Emissions in Nairobi, Kenya
10:30	Dr.	Mounia	Tahri	Assessment of Atmospheric Particulate Matter (PM <sub>2.5</sub> and PM <sub>2.5-10</sub> ) and Source Apportionment in the Ambient Air of Kenitra City, Morocco
10:35	Mr.	Leonard	Kirago	14C-based Source Apportionment of Black Carbon in PM <sub>2.5</sub> aerosols in Urban Nairobi
10:40	Dr.	Anne Wambui	Mutahi	Atmospheric Particulate Matter and gases at high altitude: a case study at 4760 m on Mt. Kenya
10:45	Dr.	Samuel Mwaniki	Gaita	Optical Properties of Water-Soluble Carbonaceous Aerosols at the Rwanda Climate Observatory
10:50	Dr.	Raeesa	Moolla	Occupational exposure and spatial distribution of BTEX concentrations at Lanseria International Airport
10:55	Ms.	Simone Thirstrup	Andersen	Renoxification on Aerosol Particles over the Atlantic Ocean
11:00	Dr.	Evelyne	Touré	Evidence of Long-Term Trend of Visibility in the Sahel and Coevolution with Meteorological Conditions and Vegetation Cover during the Recent Period
11:05	Dr.	Timothy	Glotfelty	How Has Sub-Saharan Africa's Air Quality and Climate Been Altered by Recent Land Use and Land Cover Change and Emissions Changes?
11:10	Dr.	Andriannah	Mbandi	Learning the lessons of more than 150 years of air quality management: recommendations for future efforts to reduce air pollution

11:15	Prof	Cathy	Liousse	Characterization of aerosol oxidative potential over African cities: a metric for relating air pollution and health effects
11:20	Pannel Discussion
